## Architecture and Landscape Design

**Shift Design Studio** since 1997

Architecture and landscape design projects include new construction and renovation for residential and commercial, educational and civic uses. Services provided include a full range from pre-design research and client representation through schematic, design development, landmarks and community review, construction documentation, permitting and construction administration. Building project types include office, art gallery, gymnasium, multifamily housing and private residences. Landscape project types include streetscape design, civic gardens and parks, sidewalk gardens, commercial and residential gardens. Custom furnishing, site-specific installations and fine art services are available, as well as color consulting for projects of any size and location.

Jane Martin is a registered architect [California C-31571], affiliate member of the American Society of Landscape Architects and a LEED Accredited Professional qualified to facilitate sustainable building practices. Shift Design Studio is a 100% woman-owned business, a San Francisco LBE certified with the SFHRC and a certified 'San Francisco Green Business'.

**Architectural Internships** [San Francisco | New York City | Illinois | Japan | Australia] 1987 – 1997

**Plant\*SF** since 2004

Jane Martin is the founding director of Plant\*SF, a community based non-profit organization which exists to promote permeable landscaping as sustainable infrastructure and neighborhood beautification. Plant\*SF provides public education, outreach and support for citizen action (sidewalk landscaping) as well as advocacy and policy change to support city-wide de-paving projects. Plant\*SF is a certified 'San Francisco Green Non-Profit'.

## Academic Appointments

An educator since 1995, Ms. Martin has served in capacities of Assistant Professor of Architecture, Architectural Design Fundamentals Coordinator and Chair of First Year at the California College of the Arts; and as a Lecturer in the graduate and undergraduate architecture programs at the University of California, Berkeley. She is a teacher and critic of design, architecture and art who provides public education on urban landscape and lectures on the topics of design education and sustainable infrastructure.
